FORWARD

PURPOSE: The Consolidated Cataloging Data Distribution List (CCDDL) is compiled and maintained by the DLA Logistics Information Services, located in Battle Creek, Michigan. It serves primarily as an address list for distribution of data, information, instructions and operational guidance concerning the Federal Catalog System. It also serves as an address list for communication between the activities which participate in the Federal Cataloging Program. This consolidated list provides a single, ready reference for cataloging contact points, to show distribution of the various types and quantity of cataloging data and reduces time and effort required to maintain multiple lists.

LIST	TITLE	APPLICATION(S)
C/A	Consolidated Cataloging Data Distribution List	On the HDI Federal Center Intranet Website
C/B	General Cataloging Information	Special Processing Categories, etc.
C/C	Federal Item Name Directory (Cataloging Handbook H6)	H6-Series
C/E	DLA/GSA Approved Item Exception List	Listing of NSNs Approved for Exception Management Between DLA/GSA
C/F	Federal Supply Classification Structure Changes	H2-Series
DP-1	Cataloging File Maintenance and Notification Data	Results of Transaction Process

ADDRESSES:

(a) Each address on this list is complete and includes an office symbol, or the designator for the organizational segment for the distribution within that activity. **Each activity is responsible that their current address data changes, changes are promptly furnished to DLA Logistics Information Services.**

(b) Each activity on this list indicates the minimum number of office symbol lines for their Activity Code and should utilize internal facilities for distribution of material and communications to the appropriate offices. Compliance with this procedure facilitates the maintenance of this list and increases its effectiveness.

(c) Unless absolutely necessary, names of individuals should not be included in any '\\Attention\\' line or address.

TELEPHONES:

When telephone communication is necessary for collaboration, exchange, or transmittal of cataloging information, the appropriate area code, telephone numbers, and office extensions are included for that specific office indicated by the '\\`Attention\\`' line in the activity's address. Persons utilizing long distance telephone service should consider the time differentials when calls are made between activities located in different time zones or on different time standards.

DSN PREFIX NUMBER

DSN Prefix Number is 661

CHANGES:

Send all requests for additions, deletions, or changes to the information on this list by letter, FAX or E-Mail in the same format shown on this list. Direct through appropriate channels prescribed by applicable agreements, instructions, and regulations. Each Government activity, agency, and military service must assure compliance with their respective internal policies regarding the submission of changes to this list. Unless directed otherwise, submit changes by the departmental Headquarters Cataloging Offices (HCOs), as follows:
